#### **Features**

- High Efficiency (Up to 93%)
- Constant Voltage Output
- Input Surge Protection: DM 4kV, CM 6kV
- All-Around Protection: OVP, OCP, SCP, OTP
- **IP67**
- **SELV Output**
- 5 Years Warranty

## **Description**

The EUV-150SxxxSV series is a 150W, constant-voltage LED driver that operates from 90-305 Vac input with excellent power factor. It is created for many lighting applications including high bay, tunnel and roadway, etc. The high efficiency of these drivers and compact metal case enables them to run cooler, significantly improving reliability and extending product life. To ensure trouble-free operation, protection is provided against input surge, output over voltage, over current, short circuit, and over temperature.

54 Vdc	90 ~ 305 Vac	0~2.78 A	150 W	93%	0.99	0.96	EUV-150S054SV

Notes: (1) Certified Voltage range 100-240Vac.

- (2) Measured at 100% load and 220 Vac input.
- (3) All the models are certificated to PSE, except EUV-150S054SV.
- (4) SELV output.

150W Constant Voltage IP67 Driver

- **Note:** (1) This LED driver meets the EMI specifications above, but EMI performance of a luminaire that contains it depends also on the other devices connected to the driver and on the fixture itself.
  - (2) To perform electric strength (hi-pot) testing, the "GDT ground disconnect" (nut and metal lock sheet) on the driver end-cap should be removed temporarily to prevent the internal gas discharge tube from conducting (as allowed by IEC 60598-1 Clause 10.2). After testing is completed, these items must be reinstalled to restore line-to-earth surge protection and secure the end cap.

**Note:** The 2 DC output cables are connected in parallel internally because one 1.0mm<sup>2</sup> wire can only carry 10A. Please connect the 2 brown wires together and 2 blue wires together in application, or ensure each cable carries same current.

### **RoHS Compliance**

Our products comply with reference to RoHS Directive (EU) 2015/863 amending 2011/65/EU, calling for the elimination of lead and other hazardous substances from electronic products.
